

COMPANY PROFILE

*Medical Receivables
Liquidity Unlocked*

ABOUT US :

OUR STORY

Financing **medical receivables** can pose a significant risk to lenders because they are so difficult to price. Capital Pulse's strategic solution solves this problem from the ground up with our cutting-edge medical claims valuation platform and strategic financial consulting and advisory services.

WHAT WE DO

Our advanced tech evaluates **risk** and **removes patient data**. We do all the work to work with existing RCMs to ingest, analyze, deidentify, and grade claims so that you don't need medical knowledge, medical billing expertise, or HIPAA compliance audits to lend with confidence.

ACT NOW

With cybercriminals targeting healthcare providers, **fast, affordable liquidity** is more valuable than ever. Our A.I.-powered engine models, values, and grades medical receivables with unparalleled accuracy, allowing providers to access more capital at a lower borrowing cost.

OUR SERVICES

Cutting-edge A.I. technology predicts non-payments with an unparalleled accuracy—up to 98% for some types of medical claims!

State-of-the-art SOC 2 Type II certified, HIPAA compliant environment manages protected health data (so you don't have to).

Medical provider accounts are serviced on your behalf, creating a convenient, personalized, and secure experience.

WHY CHOOSE US?

The complexity of medical billing and importance of patient privacy make valuing medical receivables difficult, but Capital Pulse is here to help. We can help turn unpaid medical claim assets into capital.

How healthy are your claims?
